

Food in a fridge

1 This is a photograph of the inside of a fridge and shows food organised on three different
2 shelves.

3 Firstly, on the top shelf, there is dairy food. For example, on the left there is a glass of milk.
4 Next to the milk, there are some eggs. Behind the eggs there is a butter dish. On the right,
5 there is some cheese on a cheeseboard.

6 Then, on the middle shelf, there is mostly fruit. For example, on the left there is a banana.

7 Next to the banana there is a mango. On the right of the mango there are some lemons and
8 in front of them, there is some ginger.

9 Finally, on the bottom shelf, there are mainly vegetables. For example, on the left there are
10 some radishes. Next to the radishes there is a tomato. On the right of the tomato there is a
11 courgette, some carrots, some garlic and an onion. There are some small red balls
12 behind the garlic and onion, but I cannot be 100% certain about what they are. They could
13 be small tomatoes.

14 I think the food in this fridge looks really healthy and could be used to make a very tasty
15 dinner.
