Resource Pack

Game – Modern technology: what do you think?

Rules

- Share out the cards equally. You may look at the prompts on your own cards.
- Decide who is going to start.
- The first player flips the coin – ‘heads’ means you can move 2 spaces, ‘tails’ means you can move 1 space.
- If you land on a picture square, use one of your prompt cards to make a sentence about the picture on the square you land on.
- If the other players are satisfied that your sentence is correct, you can stay on that square. If they are not (and can say why), you must move back to your previous square.
- If you land on a square without a picture, you must follow the instructions that are written there.
- The winner is the first player to use all their game cards or reach ‘finish’.
### Game cards - To cut up

<table>
<thead>
<tr>
