

TV

Hi. Do you watch much TV? I do. I watch quite a lot of TV, actually, 3 or 4 hours every evening. What kind of programmes do you like? I'm quite interested in wildlife programmes but I find programmes about antiques and family history quite boring, although I know a lot of people are interested in them.

I like exciting crime thrillers with lots of action and a strong story line, but I don't like horror films because I don't want to be frightened just before I go to bed, because I'll just have bad dreams all night.

What about you? What's your favourite TV programme?
